

## Help continue Cancer League of Colorado fight to find a cure for cancer by including the CLC Foundation in your estate plans.

Cancer League of Colorado Foundation 2016 Report

### Celebrating 20 years Endowment for Cancer League of Colorado!

During the 20 years since founding, the Foundation's recurring theme has been slow and steady growth through prudent management of generous gifts and bequests from members and friends of Cancer League of Colorado. Our belief that an investment policy that doesn't chase the highs of the market will not suffer the lows of the market, continues to resonate with us as we review the past year's results.

Although, 2016 was a very challenging year, the Foundation is proud to report that the balance in portfolio as of the end of 2016 was \$1.6 million which represents an investment gain of over \$71,510 or 4.4%. The portfolio remains invested 57% in equities, 29% in bonds and 15% in alternatives. This allocation and prudent management style has insured that the Foundation can and is ready to support Cancer League in its mission of funding cutting-edge research and supporting local organization that provide critical services to cancer patients, their families and caregivers.
